Notes to the financial statements

as at 30th June 2018

Note 1 - Significant accounting policies

a) Presentation of the financial statements

The financial statements of the SICAV are prepared in accordance with the Luxembourg legal and regulatory requirements concerning undertakings for collective investment and with generally accepted accounting principles in Luxembourg.

b) Valuation of assets

The assets' values are determined as follows:

The value of cash on hand or on deposit, bills and notes due on demand, accounts receivable, prepaid expenses, dividends, and interest declared or due but not yet received consists of the nominal value of these assets, unless it is unlikely that this value is received, in which event, the value is determined by deducting an amount which the SICAV deems adequate to reflect the real value of these assets.

The value of all transferable securities, money-market instruments and financial derivative instruments that are listed on a stock exchange or traded on another regulated market that operates regularly, and is recognised and open to the public, is determined based on the most recent available price.

In the case of SICAV investments that are listed on a stock exchange or traded on another regulated market that operates regularly, is recognised and open to the public and traded by market makers outside the stock exchange on which the investments are listed or of the market on which they are traded, the Board of Directors may determine the main market for the investments in question that will be then evaluated at the last available price on that market.

Money market instruments and fixed-interest securities, the residual maturity of which is less than one year, may be valued on the basis of amortised cost, a method that consists after purchase in taking into account a straight-line amortisation to arrive at the redemption price at the security's maturity.

The value of securities representative of an open-ended undertaking for collective investment is determined according to the last official net asset value per unit or according to the last estimated net asset value if it is more recent than the official net asset value, and provided that the SICAV is assured that the valuation method used for this estimate is consistent with that used for the calculation of the official net asset value.

c) Acquisition cost of securities in the portfolio

The acquisition cost of the securities held by each Sub-Fund that are denominated in currencies other than the reference currency of the Sub-Fund is converted into this currency at the exchange rate prevailing on the date of purchase.

d) Net realised gain/(loss) on securities portfolio

The realised gains and losses on securities portfolio are calculated on the basis of the average acquisition cost.

e) Investment portfolio income

Dividend income is recorded at the ex-date, net of any withholding tax.

KATLA FUND

Notes to the financial statements (continued)

as at 30th June 2018

f) Formation expenses

The formation expenses of the Sub-Fund KATLA FUND - GLOBAL VALUE are fully amortised.

If the launch of a Sub-Fund occurs after the launch date of the SICAV, the costs of formation in relation to the launch of the new Sub-Fund shall be charged to such Sub-Fund alone and may be amortised over a maximum of 5 years with effect from the Sub-Fund's launch date.

g) Conversion of foreign currencies

Cash at banks, other net assets and liabilities and the market value of the securities in portfolio expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the financial statements. Income and expenses expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the transaction.

h) Combined financial statements

The combined financial statements of the SICAV are expressed in EUR and are equal to the sum of the corresponding items in the financial statements of each Sub-Fund.
